THREE PLANES WAIT ON FOG

BRITAIN SEIZES SOVIET TROUBLE MILL IN LONDON

Nabs Documents in Red Offices.

BY SIDNEY CAVE.

[Chicago Tribune Press Service.]
London, May 12.—A search warrant was made today by 150 police officers, including about fifty special branch detectives from Scotland Yard, on the headquarters of Arcos, Ltd., a Soviet trading corporation, and the official Soviet trade delegation, a semi-official organization. Arcos house, in the headquarters is called, is in Margaret street, in the heart of London's financial district.

The raid, which was secretly organized and unexpected, occurred late this afternoon, when the building suddenly was surrounded by police. No one was permitted to enter or leave. Not until four hours later were members of the staff allowed to leave the premises.

Ordered by Home Office.

Mr. Wyndham Childs, chief of the special branch of the criminal investigation department of Scotland Yard, arrived later, taking charge of operations. The raid was carried out under instructions from the home office, and was completely organized within the last twenty-four hours. Home Secretary Sir William Joynson-Hicks personally ordered action taken on information which was received yesterday.

It is reported that the home secretary's information led him to believe that the Arcos organization or the trade delegation had obtained certain confidential British government documents.

Examining Red Documents.

An application for a search warrant was made to a city magistrate this morning, and after it was obtained the raid was made.

As soon as the officers entered the building they began searching the safe, desks, and banking part of the office. Shortly after starting operations they learned that members of the staff were tearing up documents in the offices on the upper floors. Detectives immediately rushed up and stopped the work of destruction. The officers found six rifles in one of the rooms.

It is understood the examination of batches of documents now is going on, most of them written in the Russian language and requiring the services of interpreters, a large number of whom are investigating. The Tribune correspondent was informed that the mass of documents found on the premises is so great that several days must elapse before the conclusion of the investigation and examination.

Covers Mill Around House.

Tonight the police still were continuing their investigation of the building, working behind drawn blinds and covering up every entrance to the premises. Huge crowds milled back and forth in front of the building.

Just before 10 p. m. many of the employees of Arcos, Ltd., who were in the building at the time of the raid were allowed to come out. They fled out between the detectives, who took their names and addresses. There were many Russian girls among the employees. One employee told THE TRIBUNE correspondent that all the workers had been searched systematically by the detectives. It is believed that some of the high officials are being detained, as they sent phone messages to their homes saying they might not return tonight.

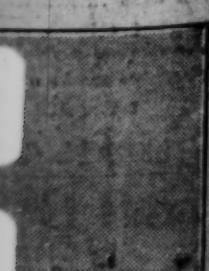

Fresh squads of police were brought up tonight to relieve those on duty at Arcos house. They were given orders to remain on duty all night guarding the building.

It is understood that detectives disguised as laborers had been watching the Arcos building for several days, ostensibly engaged in repairing its roof and those of adjoining buildings.

Eye Trade Delegation.

The detective paid special attention to the Soviet trade delegation, which has its quarters in Arcos house, and which appears to be the principal object of the search.

Arcos, Ltd., conducts in London the business of Russian merchants and acts as a trade agent for the Soviet government. It is a British registered company with a paid up capital of £100,000 (\$160,000), all of which is underwritten, was raised in Russia. The company is registered as a private company, May 1, 1926, with an authorized share capital of £10,000,000 (\$16,000,000) in London, England. The directors are R. H. Swanson, M. M. Karpov, and M. Zaitin. A. Warburton is the secretary. A staff of about 400 persons is em-

ELOPERS RACE ON DERBY TRAIN AND OUTWIT DAD

I.A.C. Turf Fans Aid Runaway Match.

BULLETIN.

Indianapolis, Ind., May 13.—(Special)—Miss Ruth Nettelhorst and Ted Wilt, Chicago elopers, were married here this morning at 2 o'clock (3 o'clock Chicago time). When the first section of the Illinois Athletic club's special Derby train arrived at the Union station it was met by Isadore Wulfson, a former justice of the peace, who described himself as "justice pro tem, acting on a special warrant." He performed the marriage ceremony in the observation car in the presence of all members of the I. A. C. who were on the train. Charles A. Dean of Chicago was master of ceremonies, and cheers of the clubmen greeted the pronouncing of the couple husband and wife.

Wulfson used the license granted to the couple at Chicago. The newlyweds went on to Louisville on the train, which was held for 20 minutes for the wedding at which Miss Charlotte Wilt, the groom's sister, acted as bridesmaid.

(Pictures on back page.)

Two hundred Derby fans on a special train to Louisville were cheering two young sleeping passengers in a race across Indiana this morning. The elopers are E. Ellsworth ("Ted") Wilt, 25 year old son of Charles T. Wilt, millionaire trunk manufacturer, and Miss Ruth Louise Nettelhorst, 18 year old daughter of County Commissioner Louis Nettelhorst.

The young couple are on the first section of the Illinois Athletic club special, which left at 9 last night on the Pennsylvania line. An hour and a half behind them Commissioner Nettelhorst is in pursuit, striving to overtake the elopers before their marriage.

The young couple are on the first section of the Illinois Athletic club special, which left at 9 last night on the Pennsylvania line. An hour and a half behind them Commissioner Nettelhorst is in pursuit, striving to overtake the elopers before their marriage.

No Preachers Among Race Fans.

Ted and Ruth boarded the I. A. C. train in Chicago after an exciting day during which they managed to obtain a marriage license, but were unable to find any one to marry them. They placed the station in vain for a clergyman or judge and continued their search among the Derby fans on the train as it pulled out.

By the time they reached Logansport, their first stop, the elopers had converted the passengers to the cause of Dan Cupid, and R. C. Caldwell, special Pennsylvanian agent on board, sent a telegram to the trainmaster at Indianapolis asking him to have an Indiana license and a minister at the Union station when the train arrived.

Determined to Wed.

"We are going to be married if it takes all week," said young Wilt.

With the help of his wife, he got the legal age of 18, but he finally accepted her sworn statement.

By the time they reached Logansport, their first stop, the elopers had converted the passengers to the cause of Dan Cupid, and R. C. Caldwell, special Pennsylvanian agent on board, sent a telegram to the trainmaster at Indianapolis asking him to have an Indiana license and a minister at the Union station when the train arrived.

Determined to Wed.

"We are going to be married if it takes all week," said young Wilt.

With the help of his wife, he got the legal age of 18, but he finally accepted her sworn statement.

Then, persuaded by officials, Ruth telephoned her father. "Papa, Ted and I are getting married," she announced. The reply was lengthy and the girl's voice took a tearful tone.

"You've always told me that when I wanted to get married you would not object," she said into the transmitter.

Wilt Takes the Phone.

Young Wilt, obviously nervous, took the telephone.

"Well, how do you like your new son-in-law?" he asked jovially. But he soon became serious and after a few minutes of intent listening, continued: "We're going to get a judge to marry us right away. Everything is all right."

A reporter who knows the commissioner took a turn at the telephone. "I think I can find a judge for them," the newspaper man suggested.

"Send them home to me and the girl," the county official retorted.

Miss Nettelhorst again spoke to her father.

"Yes . . . well . . . yes . . . yes . . ." (Continued on page 8, column 2.)

YOU CAN'T SCARE 'EM!

Broker, Kin of Mrs. Lowden, Leaps to Death

TELEPHONE CALL DELAYS HANGING OF COP'S SLAYER

Elin Lyons, dusky slayer of Police Commissioner Julian Bonfield, sat in the death cell at the county jail last night and wondered for several hours whether a judicial order issued during the afternoon would reach Sheriff Graydon in time to save him from death on the gallows today, but a reprieve was given until tonight.

His attorney, Irving Breakstone, had obtained a writ of supersedeas, which acts as an automatic stay of the sentence of death from Supreme Court Justice Warren W. Duncan at Marion, Ill., early in the day. But to make it effective it first had to be delivered to the clerk of the Supreme court at Springfield and a copy brought to the sheriff here.

When a Cicero avenue street car arrived at Montrose avenue last night William Hays, the conductor, tapped a woman of substantial proportions on the arm.

"Lady," said Hays, "you're at the end of the line."

The lady looked Hays up and down.

"'Sl right," she said, "don't both'er. I'm out for a ride."

"You'll have to pay another fare then," said H

St. Louis, and went to work with a record.

As for Commander Byrd's plane, the possibility of his getting away are even more ridiculous. Captain Wanamaker, head of the flight, has said that nothing would be decided until Nungesser and Coll. French flyers, were found or definitely given up for lost. Commander Byrd has said his plane needs severe tests before he will be ready to leave. But there was much activity about the America's hangar.

Lindbergh Sets a Record.

People took to Lindbergh as the dark horse in the race, largely because of his spectacular flight east from San Diego and St. Louis, which set up a new record flying time between the two cities and no American pilot has ever attempted a flight of such length all alone. His elapsed flying time was about 22 hours and 15 minutes, as compared to the time of 26 hours and 50 minutes established by Lieuts. Kelly and MacReady in 1923. Lindbergh's boyish personality made an immediate appeal to the crowd, also.

The landing of the Bellanca, which was removed today, and mechanics worked late into the evening rigging it with slip bolts so that the pilots can drop the wheels if they find it necessary. Radio engineers worked on a larger radio set, but Bellanca who has sacrificed everything to safety, said he did not know whether he would permit the heavier set to be used, as it would necessitate leaving some gasoline behind.

The landing gear of the Bellanca, which was tried out two days ago, was removed and the wooden "prop," which pulled the Bellanca through the air on the fifty-one hour endurance record was replaced.

Fliers' Wives Pack Lunch.

Mrs. Bertrand and Mrs. Chamberlin, wives of the pilots, packed sandwiches, fruit and chocolate in containers again today and filled vacuum bottles with coffee, water, and milk. Chamberlin preferring milk to anything else.

While they packed they discussed the flight animatedly and both of them said they were up to their husbands doing spectacular things they were not worried.

The emergency radio set, for use if Chamberlin and Bertrand are forced down in the water, was packed in waterproof oiled silk. Other supplies put aboard the plane were life preservers, blankets, batteries, flashlights, and the rubber boat, which is collapsible and blown up by compressed air, carried in a small container. The boat ears, tiny things, were laid out beside the plane.

Question Stamps Chamberlin.

Every time the door of the hangar opened there were men forward and necks were craned to see what was going on inside. One girl sent in urgent word that she must see Mr. Chamberlin. When he came out she cried:

"O, Mr. Chamberlin, there's something I want to know and I know you can tell me. Just what is it that makes the planes go up in the air and stay there?"

Chamberlin was so taken aback that he was silent. He finally explained that it would take too long to tell her and slipped back into the hangar.

A good part of the afternoon he and

FLYERS SEEN HERE?

Fishermen report having seen plane passing over St. Mary's Bay, Nova Scotia, early Monday morning. Six residents of Harbor Grace, Newfoundland, reported hearing a plane passing there Monday morning. On account of the fog they did not see the plane.

Bertaud, however, moved about, chatting with friends, neither of whom saw the slightest trace of excitement over the fact that in a few days they will probably be using all skill in attempting the most dangerous feat in aviation.

All Use Wright Motors.

The Bellanca pilots watched with interest the arrival of Lindbergh in his silver monoplane, which looks very much like the Bellanca. All the planes in the race are monoplanes, and all of them use the same motor, the Wright J-5.

While Chamberlin and Bertrand were posing for pictures there was a roar in the sky and the giant Fokker, Commander Byrd's plane, sailed into view, her three motors growing a deep throat note that beat with a curious pulsing sound due to the slight overlapping of the propellers. The America makes all the other planes look small, for her wing spread is 73 feet.

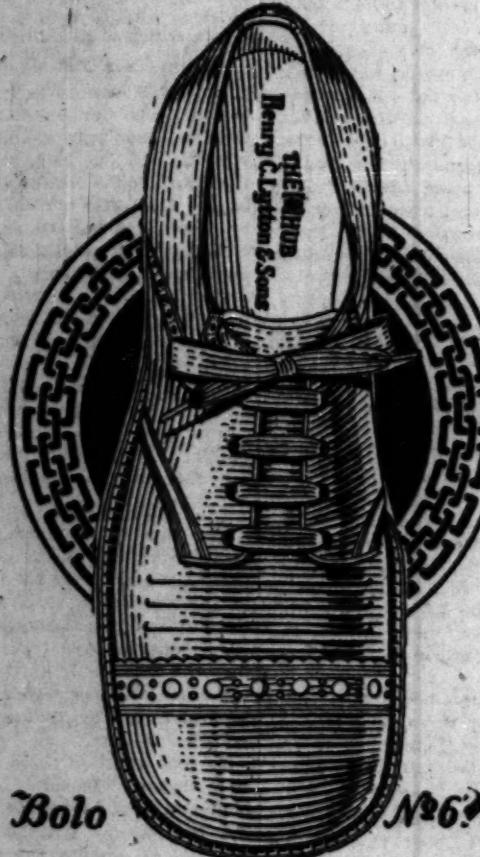

The plane left Beechwood Heights, N. J., where it was built in the shop of the American Aircraft Corporation, shortly before 6 o'clock on the forty miles flight to Roosevelt field. As it came in sight those about the Lindbergh plane craned their necks to look up at it as it swept in wide circles. It seemed like a line of the air, but it is as graceful as a smaller ship because of its one wing.

Byrd Arrives on Scene.

The American plane was piloted by Leroy Thompson of the Colonial Air Transport on its flight today and in the cockpit with him were Lieut. Bert Balchen, who returned from Spitsbergen last summer with Commander Byrd, and John McPhee, former member of Commander Byrd's crew in another plane, with Bert Acosta, Lieut. George O. Neville, Maj. C. H. Middlecomb, Malcolm P. Hansen, and R. B. C. Noordyn, Fokker engineer.

The second plane was down by Daniel Kline.

The America has not yet been turned over to the American Transoceanic corporation, which is sponsoring the flight, and will not be until after the factory test is completed, it was said. Then, Commander Byrd will make tests while it is carrying its full 4,000 pounds. That will take a day or two, he thought. Commander Byrd's hand, which was broken when the America turned over on her first test flight, will not be out of bandages until Saturday.

Makes 100 Miles an Hour.

Groves, Whalen, Mr. Wanamaker's representative, met the plane at Roosevelt field, and said that the manufacturer will make tests before the plane is accepted.

"Until that time neither Commander Byrd nor his associates will ride the plane either as passengers or to make the tests," he said. "Under no circumstances will there be any chance of Mr. Wanamaker's plane to make a flight in the interests of science and then only after every safety precaution has been taken."

The plane was in the air about forty minutes today and made about 100 miles an hour.

DE PINEDO HOPS 640 MILES TO CHARLESTON, S.C.

Charleston, S. C., May 12.—(AP)—Col. Francesco de Pinedo, Italian four-continent flier, expected tonight to hop off at dawn tomorrow for Pensacola, Fla., en route to New Orleans, his next overnight stop. He was to refuel at Pensacola, remaining possible an hour.

The giant Santa Maria II, the amphibian plane which replaced the British biplane which crashed in the sea off the coast of Spain, had been flying perfectly for 600 miles since leaving Philadelphia, he reported on arrival. He made the trip in six and one-half hours.

Col. de Pinedo will speed on to the completion of his 33,000 miles journey in hopes of reaching Rome by May 24 in time for the anniversary celebration of the day Italy entered the world war.

St. Mary's bay is about 600 miles southwest of Harbor Grace, where six up but could see nothing, as the

weather was dull and hazy with poor visibility.

The next man was John Stapleton,

aged 21. He was working in a field near the cable station with Patrick Moriarity, aged 19. Stapleton says that when he heard the noise he looked up, thinking the machine was in sight because the sound was so clear. When he could not see it, he asked Moriarity agreed that he did.

Three Women Report.

Mrs. Lillian Hinton, wife of the manager of the Imperial Cable company here, is moderately confident she heard the airplane.

Miss Margaret Whittle, working as a charwoman with Mrs. Hinton, was in the kitchen at the time and also heard the noise.

Mrs. Elizabeth Munn, wife of Robert Munn, a merchant, says she was feeding her chickens in the garden when she heard the noise. She is sure it was an airplane.

Official Investigates.

BY SIR PATRICK MCGRATH

CITY PUSHES ON TOWARD MILLION FOR FLOOD FUND

Passes \$800,000 Mark
in Relief Donations.

Chicago has pushed past her goal of \$750,000 for the Mississippi valley flood victims by something over \$50,000 and is now going ahead to make it a million. Yesterday's arithmetic of the various relief funds furnished these figures:

The Chicago Association of Commerce-Red Cross fund totaled \$725,353. Mayor William Hale Thompson's city relief committee reported \$76,903.54. President Anton J. Cernak of the Cook county board had a check for \$2,550.77, collected from some of the county employés, on its way to local Red Cross headquarters.

Which made a sum total of \$801,758.

Dowes Urges Millions in Gifts.

After receiving from Homer W. Bang, chairman of the Association of Commerce relief fund, a report that

the committees had collected \$725,998.53, William R. Dawes, president of the association, who arrived yesterday from Washington, issued this statement:

"After conferring with Secretary Hoover and the Red Cross at Washington as to the increasing seriousness of the flood situation and also learning what other cities are doing to know that Chicago will be satisfied in giving less than a million dollars for the relief of the flood sufferers."

Illinois Bell Telephone company employee sent in an additional \$207,50, which brings their contributions up to \$1,021.51.

Among Day's Large Donations.

Other large donations of yesterday were:

WMAA [Additional]	\$5,700.10
WMAG [Additional]	2,670.17
Members' Chicago Bar Association [Additional]	1,000.00
J. J. Whiting Corporation	980.15
Whiting Corporation	390.00
Wrecker Jack Co. employés	300.00
Office employés Alfred Decker & Son	245.97
English United Presbyterian church	164.38
Edward F. Swift (additional)	150.00
Schelle Furniture company	150.00
GIR Scout headquarters	150.00
Larsen	150.00
Allied	145.00

TAFT ASKS NEW CRIMINAL CODE TO SPEED JUSTICE

Assails Attorneys Who Foil Prompt Trial.

[Chicago Tribune From Service] Washington, D. C., May 12.—[Special.]—Failure of the administration of American criminal law has aroused the country to the necessity of changing the criminal code so that it will be effective, Chief Justice Taft asserted today in an address before the members of the American Institute of Law.

Mr. Taft praised the institute for its work in the restatement of the law and asserted that if an admirable criminal code is offered to the legislatures of the states it will be enacted into law. He expressed confidence that the institute would offer such a code to the country.

Improve Criminal Procedure.

"I want to felicitate you on your great and chief work, the restatement of the law," Mr. Taft said. "That is what you organized to do. It aids your work and adds much to its im-

mediate usefulness to have incorporated into the objects of your institute this direct aid to the improvement in criminal procedure, and I am delighted that you have taken it up."

Mr. Taft warned that criminal procedure will not be improved unless some organization like the institute takes the leadership in the move for its betterment. In this connection he called attention to those members of his own profession who in the past have interfered with the effective operation of the criminal law.

No lover of his country can have slept soundly in the last three or four years without having been stirred deep in his heart over the failure of the administration of the criminal law," the chief justice said. I am no pessimist about that, however, some people may think I am.

Block Effective Operation.

"I think one of the grounds for being optimistic to it is the deep feeling that has evidenced itself all through the country, among the members of the legislatures and among the people at large, as distinguished from those chief functions of our profession, the members of the bar, that the letter of legislation has been in the past to interfere with the effective operation of the criminal law by special provisions to save the case. We have them;

"We love our profession, but we know it, and if there is not some body

that is willing to speak, and if you offer as you are going to, an admirable code to the legislatures of the states, you will find there are majorities in every legislature who will be delighted to be instructed and to be helped in putting in a code that shall be effective, and that shall come from a source of impartiality and of knowledge which may not be doubted."

Heavy Boot Kills Him.

Class Barber, 40, of 2114 North Kenmore avenue, a night watchman for the Commonwealth Edison company, died of skull fracture yesterday. He had been struck by a heavy iron door he attempted to close after a strong wind had blown it open.

Information to the public is given by the official of Joliet, Illinois, who was captured and escaped from the prison, when he was armed with a gun and blew up the prison.

This was admitted by Sheriff John McLean of McLean County, who was identified by two young women who were trying to rob the bank at the time of the robbery.

The young woman who was captured and Funk was released. They tied up the aged man and took him to the bank.

It was Sheriff McLean who was captured and Funk was released. They got away with \$100,000, as he had along.

"The bank was when it was robbed like a house on fire.

Joliet prison officials say they failed to remove Funk from the outskirts of Stateville plant.

PRISON IS SAVED BY CONVICTS STORY OF PLOT

Women Pick Pseudo Priest as Bank Robber

Information from a "stool pigeon" convict led Wadsworth, captain of the office of Joliet penitentiary to foil an attempted jail delivery and to capture William "Mike" Evans, an escaped murderer, disguised as a priest, when he went to the prison armed with guns and explosive to blow up the prison wall.

This was admitted by the authorities as Evans, who escaped from the Jefferson City, Mo., penitentiary in 1922, was identified late in the day by two young women as the man who, with Harry Funk, the man he was trying to rescue from prison, held up the bank at Chenoa, Ill., fleeing with \$124,000 a year ago.

The young women who identified Evans were Miss Marie Geitz, a student nurse at the Jefferson Park hospital, Chicago, and Miss Anna Sommer, who was a clerk in the bank at the time of the robbery.

Pose as Bank Exterminator.

The young women said that Evans and Funk went to the bank posing as examiners. They worked all day on the books and when evening came tied up the aged president, then alone with them in the institution, and fled. It was Sheriff James A. Light of McLean county who revealed that the two got away with \$124,000 instead of \$100,000, as had been reported all along.

"The bank was not insured and when it was robbed it just folded up like a house of cards," the sheriff said. Joliet prison officials admitted last night they foiled the escape plot by removing Funk from the old prison on the outskirts of the two to the Stateville prison on the Lake Michigan highway.

Funk had been a semi-trustee. He had been driving a furniture truck out of the prison yard to the freight and express offices almost daily, accompanied by a guard.

Hoped to Meet Truck.

Evans' original plot called, it was stated, for the sticking up of this lone guard, taking charge of the truck, and driving back inside the walls with Funk to rescue three others. Then, if necessary, the five men were to blaze their way to freedom.

When the convict "stood pigeon" learned of these details and told them to the authorities, Funk was moved and thus it was that he was sent for Evans—seeking to pay off a simoniac debt he owed Funk—to garb himself as a priest in an effort to get into the prison with his changes of clothing, his guns for four men, and his big charge of nitroglycerin in a bottle.

If Evans is not returned to the Missouri penitentiary, Sheriff Light said, he will take out a warrant charging him with the Chenoa bank robbery, for which Funk is already serving ten years to life.

HOWARD VAN DOREN SHAW.

Mrs. Howard Van Doren Shaw, accompanied by her daughter, Mrs. Clay Judson, left Chicago yesterday for Washington, where she will be presented tonight with the gold medal of the American Institute of Architects awarded to her husband at a convention a little more than a year ago.

At the time Mr. Shaw was seriously ill and unable to attend the ceremonies incident to the presentation of the medal, which is given annually for outstanding architectural achievement. He died on May 6, 1926, and it was decided to delay the posthumous presentation until the 1927 convention.

Shaw was a member of the Kenneth Sawyer Goodman theater of the Chicago Art Institute. The medal is the highest honor awarded by the American Institute of Architects.

WILMA MILLER'S BODY GOING TO MICHIGAN GRAVE

Funk's remains for Wilma Miller, now slain in the home of her employer, Thomas Donnelly of Lake Forest, last Saturday, were held last night at 7:30 o'clock in the Lake View Lutheran church at Roosevelt and Cass streets. After the services the body was sent to Hancock, Mich., for burial.

Odo Pieschell, chauffeur, accused of slaying her, is in jail at Waukegan. There, it was said, he has eaten little. When he went yesterday for Sheriff Donnelly, the sheriff would not see him until he "would tell the truth."

Pieschell was held for murder by a coroner's jury on Wednesday.

MONEY DEMAND SPURS HUNT FOR MISSING YOUTH

Telephone demands for \$1,000 for the safe return home of Truman Frank Moon, 22 years old, 1125 Winona avenue, who disappeared from his home several days ago, yesterday caused his parents to employ private detectives to aid the police in their search. The same tyro—a man—demanded over the telephone and through the home speaking tube that the money be left on the Adams street station of the elevated lines.

Isaac Russell, a short story writer of 6748 North Kilgore avenue, yesterday urged the police to search for his son, Robert, 12 years old freshman at the Nichols Senior High school, who disappeared May 8. Young Russell, the father said, is 6 feet tall and weighs 190.

ASK CHURCH BAN ON DESERTION AS DIVORCE CAUSE

Presbyterians May Limit
Grounds to Adultery.

Pittsburgh, Pa., May 12.—(UPI)—Discussion will cease to be a recognized cause for divorce in the Presbyterian church if the recommendation of a special subcommittee made public today is accepted.

The recommendation proposes that the confession of faith be amended to make adultery the only "recognized cause for divorce and to limit divorced persons who may be remarried in the church to the innocent parts in divorce actions based on adultery.

Approved by Subcommittee.

The Presbyterian church is the only one in the country that permits annulments—which includes the Episcopal, Methodist, Lutheran, the Reformed Church in America, the Reformed Church in the United States, and the Christian Reformed church—which recognizes any cause for divorce except adultery.

Today's recommendation has been approved by a subcommittee of the general special committee on marriage and divorce, which has been considering the whole subject during the last year.

Assembly to Act on It.

The recommendation will be acted on by the full special committee on May 16. A resolution will then be proposed for action by the general assembly in that city May 26-June 1.

The amendment would do away with the present recognition of "wilful and prolonged desertion" as a cause for divorce, on the ground that abuses and conspiracies have grown up in the divorce courts based on desertion plea-

—sition.

BRITAIN SEIZES SOVIET TROUBLE MILL IN LONDON

(Continued from first page.)

ployed. They are composed of Russian and English workers, the Russians being in the majority. The company fitted up a building elaborately and the expenditure running close to \$15,000,000.

The raid was an exciting topic in the lobby of the house of commons tonight.

The Russian chargé d'affaires in London, A. P. Rosenzolik, went to the British foreign office this evening with M. Bogomolov, first secretary of the Russian legation, to protest to Foreign Secretary Sir Austen Chamberlain against the raid on Arco's house.

It was said unofficially at midnight that sufficient evidence had been discovered by the police to justify the raid. The search may continue all day tomorrow.

See Anglo-Russian Break.

TOKIO, May 12.—(UPI)—Early severance of Russo-British diplomatic relations, to be followed by demands of Conservatives to "clear out the

rods" in England, is predicted by politicians as a result of a police raid today on headquarters of the semi-diplomatic Russian trade delegation.

Russian View of Raid.

LONDON, May 12.—(UPI)—In a statement to the Associated Press tonight the Russian news agency, though not able to assign any reason for the raid on the soviet house, suggested three possible explanations:

First, surrender of part of the home office to diehard influences in the government, in which case the consequences were not likely to be serious.

Second, the raid may have been for the purpose of planting forgeries, such as was alleged by the Moscow government to have been the intention of the raid on the soviet embassy compound in Peking.

Third, the raid was possibly designed as further provocation to the soviet government.

Describing the raid, Tass asserts

Japanese Firms Take Over Vast Suzuki Interests

TOKIO, May 12.—(UPI)—An agreement has been signed under which the Mitsui bank, the Mitsubishi bank, and two other companies will take over the obligations of Suzuki & Co. to the Java sugar trust, as recently forecast.

Orders valued at approximately \$75,000,000 are involved. The action will help maintain the price of sugar on the Java market.

MISS MACKAYE TESTIFIES IN TRIAL OF KELLY

Denies He Caused Rift with Slain Husband.

BY GEORGE SHAFFER.
(Picture on back page.)

(Chicago Tribune Press Service.)
Los Angeles, Cal., May 12.—(Special)—Mrs. Ray Raymond, known on the stage as Dorothy Mackaye, widow of the musical comedy actor for whose death Paul Kelly of the films is standing trial for murder, told the story of her association with Kelly in Judge Charles Burnells' courtroom today.

Mrs. Raymond testified that she visited Kelly in his rooms on Thursday, Friday and Saturday of the second week in April.

"It was on this Saturday, April 16, that Kelly left his apartment, while Mrs. Raymond was there, went over to the Raymond bungalow four blocks away and engaged in a fist fight with the actress' husband, from which the state claims Raymond received injuries that caused his death."

Escorted Home by Kelly.

"Mr. Kelly took me home, or to his apartment," Mrs. Mackaye testified, "but said the occasions were 'very few,' when she went to Kelly's home late at night and unaccompanied.

She testified that "I was nothing out of the unusual" for her to drink gin in Kelly's apartment. Before Kelly left his apartment to beat up Raymond he had seen her twice at the gin joint, she said. "I had no idea she was going to see my husband when he went out," the actress added.

"What conversation did you have with Kelly before he left his apartment that afternoon, Saturday, April 16?" Deputy District Attorney George Kemp asked Miss Mackaye.

Her half whispered answer was: "He asked me things were at home and I told him the same as usual."

Q.—By "same as usual" you meant? A.—There had been trouble and arrangement between my husband and myself. Some weeks before, we had agreed there would be a separation, but we were on friendly speaking terms. Everything was the same as far as that goes, my husband and I, as we had been.

"Seldom Discussed Her Husband."

Q.—Was the trouble between yourself and your husband about Mr. Kelly? A.—No, sir.

Q.—Did Kelly tell you he was going to your house to see your husband? A.—No, sir.

Q.—Did he tell you he was going to beat up your husband? A.—No, sir. Mr. Kelly and I never discussed my husband, Mr. Kemp.

The actress was still on the stand when court adjourned for the day.

ELOPERS RACE ON DERBY TRAIN AND OUTWIT DAD

(Continued from first page.)

All right," she said and hung up.
"I must go home before we're married," she declared, turning to Ted.

Ted Demands a Judge.

"Find us a judge right away," Ted urged newspaper men.

"Do you think we ought to?" Miss Nettelhorst was not so bold now.

"Let us talk it over," Will suggested.

They whispered around each other in a corner of the press room.

Then he repeated his request for a magistrate. But it was after 6 p.m. then, so they left the building, saying they'd do their own hunting.

"I have absolutely no objection to their getting married, but I don't want them to rush into it," was Commissioner Nettelhorst's comment to a reporter.

"Will Sir was reached and he said:

"We didn't know anything about the wedding, but I don't know anything about it now. My son is old enough to know what he's doing."

Takes Dad's Compartment.

It was disclosed at Logansport that young Wilt had told his father on his return from arranging his elopement with Miss Farley Hopkins that he wanted space on the I. A. C. special for his son and himself, and the young man appropriated the compartment for himself and his bride-to-be. Mr. Wilt had to take a later train to the Derby.

NATIONAL HONOR IS SOUGHT FOR CITY'S BOY HERO

Alvin Ott Is Judged Chicago's Bravest.

Not only was Alvin Ott of 2525 Eastwood avenue, who rescued wealthy William Bush from the Chicago river on March 7, 1927, yesterday designated the bravest boy in Chicago but he was put in line for the title of national boy hero.

When George W. Dixon, president of the Chicago Boys' Week federation, announced the judges decision citing young Ott for his outstanding bravery act and giving him the \$100 award, he made known an offer of \$1,000 to be given to the national boy hero.

The winner is to be chosen from among the heroes of 2,000 cities during National Boys' week.

The checks will be presented to Ott and the winners of the three other prizes this evening at the First Regiment armory by Mr. Dixon, Maj. Gen. William Lassiter, Chief of Police Hughes, and Fire Chief Seyerich.

Money for Operation.

Most of the \$100, Ott was told Mr. Dixon last night, will go to pay for an operation following a football injury from which he was convalescing at the time

of his plunge into the river to make the rescue.

Fourteen years old Thomas Ryan, 3326 North Seely avenue, who last November saved his baby sister from being buried alive when his mother, his father, and his grandmother were riding had capsized. The father was drowned. The youth held his grandmother's head above water for twenty minutes and finally managed to reach the piling, where help was given.

Frank Hazzard, 2052 North Lamont avenue, pulled his grandmother to safety last August as she was going down for the third time after the gasoline launch in which young Hazzard, his father, and his grandmother were riding had capsized. The father was drowned. The youth held his grandmother's head above water for twenty minutes and finally managed to reach the piling, where help was given.

Saves Children; Wins Prize.

Fourth prize of \$25 went to Walter Aumann, 21, for tossing a burning mass of moving picture films out of the window of his home, 2610 West Eighteenth street, thereby saving ten small children from possible death. The films caught fire during an amateur show.

Edgar Goodlow, 8867 Drizzel boulevard, Robert Ballantine, 809 Lyon & Healy building; Kenneth Winger, 118 Lafayette avenue; Lewis K. Elliot, 445 Greenleaf avenue, and Tom Reynolds, 106 Delaware place, received honorable mention.

The checks will be presented to Ott and the winners of the three other prizes this evening at the First Regiment armory by Mr. Dixon, Maj. Gen. William Lassiter, Chief of Police Hughes, and Fire Chief Seyerich.

Student Suicides Blamed on Teaching of Evolution

Evolution theories taught in American universities were declared one of the principal causes of student suicides by Dr. J. H. Reiner of Palatine, Ill., at the seventy-second annual meeting of the Illinois Homeopathic Medical Association in the Hotel Sherman yesterday.

Money for Operation.

Most of the \$100, Ott was told Mr. Dixon yesterday, will go to pay for an operation following a football injury from which he was convalescing at the time

Young Wife on Probation on Drunken Driving Charge

Mrs. Helen Parks, 20 years old, 4835 North Winthrop avenue, was placed on probation for one year yesterday by Judge Philip J. Finnegan when she was arraigned on a charge of driving an automobile while intoxicated. A fine of \$25 was suspended after Mrs. Parks' mother had pleaded with the

FOR several years I have been trying different kinds of plant food," says Sadie A. Baffer, of Leesburg, Va. "After using Vigoro, I find that there is nothing to equal it. It gives plants quick growth and good color.

"I won three silver cups at the Fauquier and Loudoun Counties' Garden Club on my flowers."

Garden lovers everywhere have found that this plant food gives unusually successful results. Vigoro itself is unusual!

Odorless, applied by hand!

There is nothing unpleasant about Vigoro! So clean you can scatter it by hand or sift from your kitchen colander! No wonder experienced growers prefer it!

Vigoro, unlike any plant food you have ever known, is the result of years of experiment by Swift & Company experts. It provides a balanced ration throughout the sea-

WOMAN SMILES AS HER PART IN MURDER IS TOLD

Mrs. Catherine Cassler
on Trial for Life.

CRIMINAL COURT.
Mrs. Fraser, laundress, sentenced to one year in the bridewell by Judge William J. Brothman.

Frank Bates, assault with a deadly weapon: sentence to one year in the bridewell by Judge William J. Lindsey.

Frank Smith, robbery: sentenced to three to twenty years in the penitentiary by Judge Philip L. Sullivan.

In the witness chair sat Loren Prairie, typical dullard, telling how a killed William Lindstrom at the behest of two women. Facing him, smiling now and then, sat Mrs. Catherine Cassler, fair, fat and 40, undistinguishable by looks or appearance from any of the women spectators.

So it was yesterday in Judge Philip L. Sullivan's court where Mrs. Cassler is on trial for her life, charged with being one of Lindstrom's murderers.

Back in Hebron, Conn., she had been one of the leaders of the C. T. U., and at the same time a bootlegger, respected by most folks, but despised by her competitors against whom she was giving information.

Tells of Striking Blow.

"I stepped back and Mrs. Fraser handed me the lead pipe," Patrick said. "Lindstrom was stopped over."

"What did you do then?" asked Assistant State's Attorney Henry Ayers.

"I hit him," the dialogue continued.

Q.—Where? A.—Back of the neck.

Q.—Did you hit him hard? A.—Pretty hard.

Q.—With both hands? A.—No, with one.

Q.—What happened then? A.—He fell to the floor.

Q.—What did you do? A.—I went out and sat down; talked to Mrs. Fraser. She asked where Mrs. Cassler was and I said out in the car across the street.

Carried Him to Car.

Q.—What happened next? A.—I brought her in and parked the car around in the alley. We talked a while and then Mrs. Cassler said "Let's get him loaded into the car," so we put his overcoat and cap on and wrapped him in a blanket and I carried him on my shoulder.

It was necessary for Judge Sullivan to remind the lawyers that it was Mrs. Cassler who was on trial, not Patrick. This was because the state wanted to show what happened later.

Defense Attorney W. W. Whiting.

SNYDER'S KIN TO FIGHT FOR CARE OF ORPHAN CHILD

New York, May 12.—(Special)—While Ruth Snyder and her erstwhile lover, Judd Gray, awaited sentence to the electric chair tomorrow for the murder of Ruth's home-loving husband, Albert Snyder, a fight began over the custody of their 3 year old Snyder child, Lorraine.

Warren Schneider, brother of the slain art editor, announced he had engaged in negotiations and would seek appointment of Lorraine's guardian.

His admitted purpose is to take the girl from the custody of her grandmother, Mrs. Josephine Brown, who declares that it is the desire of the convicted husband-slayer, that the girl remain in her custody.

Demands Insurance for Child.

If Warren Schneider becomes guard-

ian, he says it'll be his intention to institute proceedings at once to force payment of the \$50,000 life insurance which furnished the motive for Snyder's murder.

Under the law invalidating double indemnity clauses in case of murder and the object of collecting the \$50,000, Lorraine is not entitled to \$100,000 which would have been payable to Mrs. Snyder had the death of her husband been accepted as an accident or the work of burglars. She will, however, make a fight for \$50,000, which is supposed to be payable in case of death from any cause.

Ruth Refuses to Pray.

Mrs. Snyder, on the eve of her appearance in the Long Island City court for sentence, refused to see a Salvation Army basic who called to advise her that she was welcome to other visitors today, and nothing occurred to interrupt her contemplation of her fate.

Judd Gray was more fortunate. He was closeted for some time during the afternoon with his attorney, Samuel L. Miller. Later Gray prayed with the Salvation Army priest.

It was announced today that Gray was to be visited by his wife. But she failed to put in an appearance.

NAME GROUP TO SEEK EXTENSION OF WACKER DRIVE

Quick action on the extension of Wacker drive from Michigan avenue east to the proposed outer drive came into prospect yesterday with the appointment of a special subcommittee of the council's committee on judiciary and special assessment to promote the plan.

Ald. John Coughlin was named by Chairman O. F. Nelson to head the subcommittee. Other members are Ald. George Saiff and Ald. James Coyne.

The proposal is to construct a double-deck thoroughfare along the river bank, linking the south approach of the Michigan avenue bridge with the approach of the projected outer drive bridge.

Ald. Nelson revived before the committee the plan to widen North Clark street from Center street to Division, to 100 feet, the present width from North avenue to Center street. Action was deferred.

Beginning Today—the Annual May Selling of Women's Silk Dresses The Season's Most Successful Styles in Georgettes and Silks

Misses' Coats and Suits at Special May Prices

on the Junior floor....the 4th.

Charming Tub Silks for Girls In a Special Selling, \$6.75

For Girls 8 to 14 Years

Now—just in time for the warmer weather—adorably youthful tub silk frocks in many, bright prints! In tans, blues, reds, greens, all the bright colors girls like best, all easy and successful to launder. So now Miss 8 to 14 may be coolly, becomingly and smartly clad for the "wind-up" of the school year and for all summer as well.

In Six Different Styles

Some frocks are sleeveless, some have cunning kick plackets, square necks and belted waists; many are piped in contrasting color; each has some gay new touch. In fact, there are six charming styles to choose from—or, better yet—choose all six, for at this very special price they are a decided economy.

*Girls' and Junior's Room, Junior Floor,
the Fourth*

May brings a number of attractive and original little coat and suit models to meet the warmer days. The Coats sketched are a few of the charming styles. The first is of velvet, particularly chic for late spring and summer. In black, navy, jockey blue, brown and tan with large satin bow and satin lining, \$25.

The second of kasha material is lined with crepe and has a stitched kasha facing. In black, navy and sierra tan or in black satin with white crepe lining, \$55. Also of kasha, is the coat pictured third with a deep shawl collar of broadtail fur. In black, and in navy, priced \$75.

And the Suits!

Both are of twill cloth with neat wrap-around skirts, braid binding and crepe lining. Extreme left—in navy only, \$27.50; second, in black or navy, \$37.50.

*Misses' Coats and Suits, Sixth Floor,
Middle, Wabash*

\$25 \$35 \$45

There is hardly an attractive summer mod that does not find delightful representation in this May Selling, the most important dress event of the season. And women who each year assemble their entire spring and summer dress wardrobe in this selling, know what fine materials it assures, what excellent workmanship and careful detail.

There are one-piece, two-piece and even three-piece models with such new features as Cardigans, blouses, vertical tucks and intricate plaitings, exquisitely figured georgettes with beaded tracery, a summer note just introduced, and a line of the season's loveliest colors to choose from, in dark as well as the smart lighter shades.

Women's Moderately Priced Dresses, Sixth Floor, South, Wabash

Special "Picot-Top" Chiffon Hosiery, \$1.95

The superior quality of this new chiffon hose will delight every woman's heart. These stockings are made of four-strand silk, very finely woven, have an all silk top with smart picot edging, and are generously long. They are to be had in beige, blonde, sandust, gunmetal, grain, atmosphere and pearl, to complement the new summer shoes and frocks, and are an exceptional value.

Group Two, \$1.50—the infants at the right look lovely in dresses with smocked yoke lines, feather stitching, yokes with double hemstitching and fine eyelet work.

Infant's Room, Junior Floor, the 4th

MOSCOW BASES "HATE U.S." PLOT ON MEXICO CITY

Woman Envoy's Aids Stir
Up Latin Races.

The following is a continuation of
the series of articles on Mexico by Mr.
Seldes, written after several weeks of
investigation in the southern republic.

BY GEORGE SELDES.

(Chicago Tribune Free Service)

Laredo, Tex., May 17.—The soviet
embassy in Mexico City devotes the
greater part of its activities to plotting
against the United States. It is
concentrating at present upon Central
and South American nations, leaving
their public opinions unaffected by coun-
try which promulgated the Monroe
Doctrine, and promising moral and
financial aid.

This activity of the bolshevists in
Mexico is directed by the third interna-
tional in Moscow in exactly the
same way it directs the soviet em-
bassy, consulates and trade representa-
tives in European capitals, making
them diplomatically immune stations
centered for propaganda and interna-
tional plotting.

Mme. Kollantay, the soviet envoy
to Mexico, acknowledged by every one
in the country, including Americans, as
a charming, cultured and high-minded
woman, directs sixteen secretaries.
These sixteen departments of the
embassy are assigned each to a country
in Latin America, or some special
function such as the Anti-Imperialist
League of the Americas, and in every
case the various departments of the
soviet embassy stir up trouble against
the United States.

Russian Revenge on U.S.
This is Red Russia's revenge for the
American refusal to recognize the
soviet government.

Regarding the soviet success in
Mexico itself, the following is a vital
fact: the American Federation of
Labor has promised and is giving its
full support to the Calles régime and
would even aid with arms and ammu-
nition, on the one condition that the
Mexican government discouraged the
Reds from across the frontier.
This explains, among other things,
the action of the C. R. O. M., or Mex-

icos, attack, has reached a circulation
of 70,000, a remarkable figure in
a country with some 30 per cent
of the population illiterate, and where
the big Mexican papers are less
than half that number of buyers. Of course,
El Machete is not bought. It is paid
for by Moscow and given free to any
one who sympathizes with its cause.

Star Up Oil Workers.

The Russian embassy, consulate, and
other official agencies are employing agi-
tators throughout the country. They
are concentrating at present on the oil
camps, the textile factories, and the
railroad unions. I have talked to
American oil men who have found
bolshevik agitators who come into the
camps as workmen, or who attach
themselves to the camps as hangers-
on. These do not dominate the meetings.
Russian agents, disguised as ped-
dlers, go through the countryside, es-
pecially selling cheap goods, but really
preaching communist doctrine.

Occasionally, when there is a big
strike, there is even money from Mos-
cow. The railroad workers, who are
called the "aristocrats of labor," are
well known. They joined the C. R. O. M.,
received \$6,000 rubles (\$16,000) from
Russia. The embassies denied trans-
mitting it, saying it came direct by
mail. Nevertheless there is no doubt
the embassy was the instrument for
obtaining it.

Can't Read U. S. Yet.

The bolsheviki of Mexico realize
that the United States is still a wall they
cannot scale. They would like to
use President Calles as a stepping-stone,
but Calles and Morones stand by the
Latin-American states.

Tries to Rally Latin Reds.

While most of the bolshevism is
done secretly, there are times when the
movement comes out in the open. For
a year the soviet embassy has been
trying to hold a congress of all Latin-
American communist parties. The
delegates from almost every state had
arrived in Mexico City and had held
several meetings when they were ad-
vised by American newspaper men
that the publicized meeting had been
banned by the government to act. The government found it could
not afford to offend the American Fed-
eration of Labor and outlawed the
meeting. Another attempt followed.
This also was suppressed. If the con-
gress actually has been held within
the last few months, it has been done
secretly.

The Russian embassy in Mexico is
second in size to the American. The
American does the most business; the
Russian does almost no business what-
ever. Its greatest activity is anti-
American propaganda.

During the ambassadorship of Pet-
rowski the third internationale subdi-
vided the communists organ El Ma-
chete. It started with 3,000 copies.
Under Mino, it has this propaganda paper, in which you can read
many anti-C. R. O. M. and anti-United
States stories of our frontier.

This explains, among other things,
the action of the C. R. O. M., or Mex-

A. F. of L. Therefore the various
soviet agencies are concentrating on
the West Indies and Central and South
America. The slogan "Down with
North American Imperialism" is the
one now most employed.

The day I arrived in Mexico City
crowds were swarming the streets and
theatre were soon gathering signatures to
a circular "Against Yankee imperial-
ism," and even blaming the vaccination
deaths on the United States.

turned out to be a meeting to protest
the Schick diphtheria vaccination.

The importance of the demonstra-
tion lies in the fact that two elements
immediately got possession of the mob,
the anti-government element and the
bolshevik element. Agents of the lat-
ter were soon gathering signatures to
a circular "Against Yankee imperial-
ism," and even blaming the vaccination
deaths on the United States.

GOLF TOGS

In assembling his present offerings of things
for gentlemen to wear on the links, Mr. E. R.
Pifield paid particular attention to three prime
factors—Style, Comfort, Economy. Sweaters
and hose, shirts and neckwear, suits and
knicker—all reflect this careful selection. Two,
three and four piece suits are priced from

\$60.00 to \$100.00

Santa Fe Economy Increases Capacity—Decreases Costs

Operating results on the Santa Fe for
the year 1926 show, on the whole, sub-
stantial improvement over the year 1920
following Government control.

Revenue tons per train mile increased in
1926 to 769.70 tons from 569.21 in 1920.

Average daily movement per freight car in-
creased to 37.01 miles from 31.50 miles.

Average revenue per ton mile of freight de-
creased to 1.203 cents from 1.316 cents.

Two Items of Economy in Oper-
ation Deserve Particular
Attention:

FIRST is reduction of "loss and damage"
freight.

In the year 1920 this totaled \$2,817,596; in

1926, \$1,350,429. If the rate of loss and dam-
age in 1926 had been the same as in 1920 the

total would have been \$3,298,502, or 2.44

times as much as was the case. Loss and
damage meetings devoted to careful study

and instruction, the co-operation of all classes

of employees handling freight, and better pack-
ing, marking and general co-operation by

shippers have accomplished this saving.

SECOND is conservation of fuel.

In 1920 locomotive fuel cost the Santa Fe

\$28,372,475; in 1926 the cost was \$22,604,116.

In 1920 the Santa Fe used 185 lbs. of fuel to

move 1000 gross tons, excluding the locomo-
tive, one mile in road service, and in 1926 it

used 121 lbs. a saving of 52 lbs., or 28.1%.

In 1920 it used 16.4 lbs. to move a pas-
senger car one mile, and in 1926 it used 13.6 lbs.,
the saving being 2.8 lbs., or 17.07%.

The total fuel saving for the year 1926 is
equivalent to 1,756,180 tons, costing \$7,744,754
at 1926 prices.

This conservation of fuel has been accom-
plished by a carefully worked out policy of

1. Lengthening locomotive runs, so
less fuel is used in firing up and less

time lost in cooling locomotives.

2. Reducing train delays.

3. Larger locomotives, bigger trains,
and heavier carloads in which ship-
pers have rendered very valuable aid.

4. Using the best fuel saving devices.

5. More scientific firing and handling
of locomotives and trains by the
men.

We Ask Your Continued Assist-
ance in Meeting These Trans-
portation Problems.

And we promise you our best efforts to

render steadily improved service, although
the Full Crew and Train Limit laws in some
cases limit greatly our possibilities for further

economies.

If you think that big money must be spent to swing big
deals, read this example of what one four line want ad
in The Sunday Tribune accomplished for Mr. Bond of
1838 Eddy street, Chicago.

"I was in Cincinnati closing up an exchange of a Cin-
cinnati property for a 12th street property in Chicago. I met
Mr. A. E. Foster, who owned the Elberon Apartments on
Price Hill, Cincinnati. He stated that he had been trying to
dispose of them but had not met with much success. He placed
the property in my hands to exchange. Upon my return to
Chicago, I placed a four line ad in The Sunday Tribune. I
received a reply from Cincinnati making a tentative offer.
I returned there and closed the deal for what is now known
as the Robinson Apartments for fifty lots, two flat buildings,
some cash, and assumed a mortgage; the whole involving about
\$200,000. I received a good commission and returned home
about \$5,000 better off—all through a four line ad in the
Sunday Edition of The World's Greatest Newspaper."

PHIL BOND,
1838 Eddy Street, Chicago, Illinois.

What The Tribune Want Ad Section did for Mr. Bond, it has done for
many others. Whether you have a block of apartment buildings or a second hand
radio to sell, an interested buyer is necessary. Practically every buyer in the Chicago
market watches The Tribune Want Ad Section. Someone in this vast army is
someone looking for what you have to sell—and a Tribune Want Ad will bring
you together. Try one the next time you want to sell or buy, hire someone or
get a job.

Bar Association Hopes
for Count Wednesday.

More than 4,000 ballots were mailed out last night by the Chicago Bar association to its members as a result of the decision of the board of managers to conduct a primary wherein the lawyers of Cook county may express their views on the candidates at the judicial election in June.

Members were urged to vote immediately and it was hoped to tabulate the results next Wednesday. Attorneys were not backward in predicting that the vote would contain surprises, especially in regard to some of the sitting judges named on the coalition ticket.

Favors Replacement of Some.

"Lawyers were by no means in favor of the plan of reflecting all sitting judges," commented one prominent member of the bar. "There are some judges whose conduct on the bench by no means justified their re-nomination. The bar primary will contain some revelations that should prove interesting to the public."

While the board of managers refused to make any official statement in regard to the replacement of Democratic and Republican leaders in leaving the names of Judges Charles M. Thomson, Oscar Torrison and Frank Johnstone Jr. off the coalition ticket, it was reported that no bar association primary would have been held if their names had not been omitted. The three judges are running independently.

Added Names on Ballot.

The ballots mailed to lawyers contained names of the twenty-one coalition candidates, the names of the three judges mentioned above, the names of candidates and the names of those candidates on the anti-coalition ticket which have not been withdrawn. Attorneys John D. Black, Oscar G. Wahlgren, and William A. Doyle yesterday filed withdrawal notices and a number of others previously declared they did not authorize the placing of their names on the ballot.

Runaway Colorado Boy

Found Penniless Here

Harold Patt, 17, who left the home of his uncle in Colorado Springs, Colo., was found wandering the streets last night, broken in spirit and heart—for he was penniless and with no place to sleep. A stranger found the boy in tears, bought him food, and assisted him in getting a bed in the West Chicago Avenue police station. The police are endeavoring to locate the Colorado uncle.

ILL AT WORK, SOON DIES.

D. Washer, 47, an accountant, died of a heart attack yesterday in his room at the Devon Arms hotel. He became ill while at work in the plant of the A. D. Wash Paper Box company.

INCREASES SCOPE OF COMPENSATION ACT FOR WORKER

House Passes Bill Over Protest of Critics.

Springfield, Ill., May 12.—[Special]—An agreed bill between labor and employer to increase the scope of the present workmen's compensation act passed the house of representatives today, but not without difficulty. The measure, it is alleged, by virtue of the fact that it includes children illegally employed and grants them 50 per cent more compensation than a worker legally employed, takes away the common law right the child would now enjoy of bringing suit and recovering damages.

It seems somewhat inconsistent for organized labor, which would like us to approve the child labor amendment to the constitution, to come down here with such a bill," declared Representative G. E. Storer of Dixie.

Other features of the bill were deemed desirable, however—the inclusion of other classes of workers, the increase of certain classes of compensation, and the provision that a widow shall cease to receive compensation if she remarries—and the measure, which was introduced by Representative R. G. Soderstrom of Streator, was approved, 109 to 3, with one voting present.

Argue Over Convict Labor Bill.

It was not the only agreed capital labor bill to be considered. The McCarthy bill to require all goods made by convict labor, whether in Illinois or imported, to be stamped "convict made" was brought up. It struck sudden and determined opposition, the result of which was, as Representative Devine expressed it:

"This bill would discourage convict labor, and I think it better to keep convicts at work than to let them get their exercise murdering keepers."

Representative McCarthy was forced to postpone further consideration.

Thompson Tax Plans Mean Work.

Faced with Mayor Thompson's bills seeking a revision of the taxing system by making the tax fall on full assessed valuation and cutting the tax rates in half, the general assembly today began to do a little figuring—and a little dixy staggering. Every levy in the state must be separately amended and amended separately as to the taxable valuation and the rate, it was said.

Some legislators figured that in round numbers that would mean "more than 100 bills."

Bill Provides Grain Inspectors.

Representative Homer J. Tice of Greenview introduced a bill seeking to set up the "Iowa system" of state inspected grain and private grain warehouses in Illinois. It has nothing to do with the Board of Trade.

DAY IN SPRINGFIELD

Both houses adjourned until next Tuesday.

SENATE:

BILLS PASSED: House bill to increase pay of clerks of Appellate Judges in Cook county to \$3,000; Senator Meents' uniform fiduciaries act; Senator Dunlap's bill ending use of dimmers on motor headlights and requiring large trucks to carry left hand side light.

Gov. Small's bill to prevent quo warranto proceedings against himself was advanced to reading without discussion.

NEW BILLS: By judiciary committee to stiffen up bail bond system in Cook county; by Haenisch, to enable Lincoln park board to use bridges bond issue for tunnel under Chicago river.

HOUSE:

BILLS PASSED: Joint bill to amend act to assist wife of soldiers and sailors; Johnson bill to regulate issuance of bonds by school districts; McCarthy bill, to prohibit sale of illegally colored dairy products; Elrod bill, to raise tax levy for mothers' and children's aid in Cook county from four-tenths to six-tenths of a mill; McCullough bill, to remove certain restrictions on loan of school funds in school districts between 10,000 and 100,000 population.

NEW BILLS: By Tice, to establish "Iowa system" of state inspected grain and private grain warehouses; by Miller, to require state treasurer to publish in Springfield paper in July and January statement of public funds on hand.

Grim Pyorrhea gets 4 out of 5

All around you are people doomed, through carelessness, to contract Pyorrhea. Four persons out of five past forty (and many younger) are its victims.

Carelessness—neglect of teeth and gums—is the cause. And the results, too often, are loss of teeth, incisives, rheumatism, or other serious diseases.

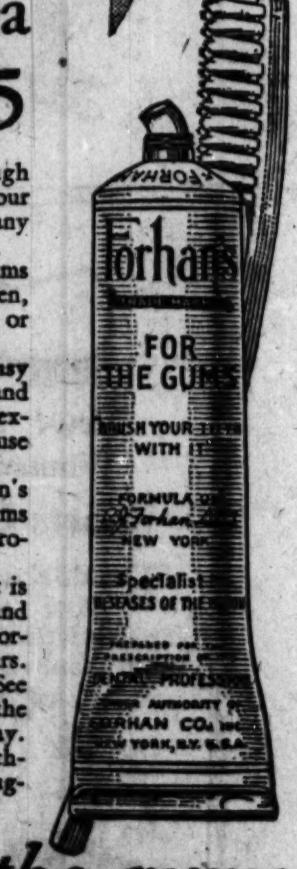

And yet, if you start in time, it is so easy to prevent. If your gums are soft and bleeding, see your dentist at once for examination. And start immediately to use Forhan's for the Gums.

Used regularly and in time, Forhan's prevents Pyorrhea or checks it. It firms the gums and keeps them healthy. It protects teeth and keeps them white.

Ask your dentist about Forhan's. It is the formula of R. J. Forhan, D. S. S., and contains a percentage of Forhan's Pyorrhea Liquid, used by dentists for 15 years. Safeguard your youth and health! See your dentist twice a year. And start the morning-and-night Forhan habit, today. Teach your children to use it as health-insurance. Get a tube today. At all drug-gins, 35c and 60c.

Forhan's for the gums

MORE THAN A TOOTH PASTE... IT CHECKS PYORRHEA
Thousands are keeping their breath sweet and fresh this way. We promise that you'll never go back to ordinary mouth-washes that only conceal unpleasant breath with embarrassing odors of their own. You have seen this Forhan's Antiseptic Refreshing. It is refreshing, delicious, always. Try it.

You can be sure of this
As all dentists, 35c and 60c.

SAFFORD PRESENTS PROPOSED STATE WET-DRY VOTE

keeping the state dry and we would have the same confused conditions in Illinois that now exist in New York state."

Dr. Safford predicted, however, that the legislature will not vote for a referendum, and if it does the drys will win at the polls. He intimated that the drys would not maintain a hands-off policy, if the question is presented to the people, and that the test of Volsteadism in this state, then made possible for the first time, will show the prohibitionists in majority.

"When a state officer takes the oath of office he swears to enforce all the laws of the state and of the United States," Dr. Safford continued. "So, whatever the result of a referendum, it would not alter his duty to enforce the law strictly. No state by such action can ignore or nullify a national law."

"The only kind of referendum that could have any real value would be one submitted by the federal congress. Before prohibition came the drys on a number of occasions tried to get a referendum and were turned down by the wetts. Now, why should the drys yield to their opponents when they were refused a similar courtesy before?"

"The drys will win in such a state

referendum, if it is authorized, but the time and money expended on such balloting could well be spent in other ways."

The Weber-O'Grady bill, which provides for the referendum, has passed its third reading and is now on its way to the Senate at Springfield. Its backers predict that it will be passed by the house and go to the senate.

JAPANESE ENVOY TO ARMS PARLEY VISITS CHICAGO

(Picture on back page.)

Sadao Saburi, chief negotiator of treaties for the Japanese government, visited Chicago yesterday on his way to the international disarmament conference.

To all queries bearing upon the Chinese situation the position of Japan upon disarmament, the attitude his country probably will take in the Chinese question, and the like, Mr. Saburi was politely but firmly noncommittal.

Mr. Saburi went from the Union station to the Blackstone and from there to have a luncheon meeting with Silas H. Straw at the Chicago club. He will leave for the east today.

VENUE CHANGE WINS IN FIGHT TO SEE EX-DRAGON

La Porte, Ind., May 12.—[Special.]—Change of venue was taken today in the mandamus action filed by Robert P. Moore, Michigan City, attorney for D. C. Stephenson, former Indiana Klan dragon, against Walter H. Dahl, warden of the Indiana State prison to interview Stephenson, who is serving a life sentence for killing an Indianapolis girl. The case was sent by Judge John C. Richter, of La Porte county Circuit court, to St. Joseph county Superior court No. 1 at South Bend. Lloyd O. Hill and Paul C. Newman, both of Indianapolis, Dahl was in court, but was not accompanied by an attorney. He did not oppose Moore's motion for a change of venue.

SMITH MISSING NEGATIVE.

James Allen, 56, formerly a locomotive engineer, missing from the Plaza hotel,

South avenue and Clark street, is being sought by relatives.

Bite yourself an Alphabet

And they're both ardent pretzeleers

Back in '73 Grandpa was the pretzel biting champion of Kokomo County—and he's still good. He can bite straight through the alphabet without spoiling a single pretzel. Bobby can already make a "B" in a single bite, but he's apt to leave rough edges on his "Q's."

In a statement recently bitten for the press, Grandpa said: "Uneda Bakers' pretzels are

"Pretzels today are better than ever. Crisper than the kind we had when Grant was president. Crunchier and more brittle than even those of the Garfield-Arthur period. And the salty taste is what I call salty."

The Golden Age of pretzels is here. People are eating O-So-Gud Pretzels every chance they get. Before you go to bed—great. With ginger ale—fine. With soup, salad or dessert—nothing smakier. For children in between meals.

Easy to digest? Yea. And remember—O-So-Gud is the name. Why so good? Because they're made by the Uneda Bakers.

O-SO-GUD PRETZELS

Buy them by the pound. There's a lot of goodness tied up in each and every one.

SLIM JIM
O.S.G. U.S. PAT. OFF.
SLIM JIM PRETZEL STICKS

Slim as a string, but much more interesting. Good and salty. In handy packages at your grocers.

NATIONAL BISCUIT COMPANY
"Uneeda Bakers"

Easy starting—smooth speed—quick pick-up! No knocks—just a rhythmic purr from the engine and a steady flow of power **all the time**—with RED CROWN ETHYL in the tank! It "knocks out that knock".

Buy Red Crown Ethyl at Any Standard Oil Service Station or at Any Authorized Filling Station or Garage.

Investigate Our Coupon Book System—it's a Great Convenience. Sold in \$10 and \$25 denominations.

Standard Oil Company
(Indiana)
910 So. Michigan Ave., Chicago, Ill.

Touring Suggestions

1—Lake Minnetonka in Minnesota, given national fame through Thurlow Lieurance's beautiful music. "By the Waters of Minnetonka." A winding lake of bays and islands, estimated to have 400 miles of shore line. Reached by State Highway 11 from Minneapolis to Wayzata, a village on the north shore of the lower lake.

2—The Mississippi River running through Marion, Indiana, one of the three rivers in the world whose course runs north. State Highways 11 and 35.

3—Excelsior Springs, noted health resort situated among the hills northeast of Kansas City, Missouri. Famous for its many kinds of mineral water. More than twenty springs. Highway 10.

4—East Tawas, Michigan, located on Tawas Bay. Gateway to Michigan National Forest, containing 163,000 acres of natural beauty. Unparalleled recreational resources for the summer motorist. State Trunk Line M-10.

5—Grandview Drive, Peoria, Illinois, overlooking Illinois Valley and Peoria Lake. Selected by National Artists Committee as one of the seven most beautiful views in the United States. State Highways 8, 9, 24, 29.

6—Mennonite settlements at Newton and Burton, a little bit of Europe transplanted into Kansas. In September, 1874, a thousand Mennonites from Russia purchased 100,000 acres of Kansas prairie, and in 1893 opened the first Mennonite college in the United States at Newton. U. S. Inter-state Highway 250.

7—Hillboro, North Dakota, in the heart of the famous Red River Valley, "Breadbasket of the World." Beautiful natural wooded park and tourist camp. On Meridian Highway and State Highway 1.

8—"Backbone State Park," Manchester, Iowa. Some of the best natural scenery in America. Local wonders—"Cedar Stairs," the "Pulpit Rock" and other curiosities. Government Fisheries on A. Y. P. Trail 8. State Highway 13 north of Manchester.

9—"Indian Head" sentinel on the Mississippi. Natural stone face, forty-four feet from chin to forehead. Near Fountain City, Wisconsin. State Highway 35.

10—Jewel Cave, thirteen miles west of Custer, South Dakota. The main entrance opens to visitors for one and one-half miles, where it crosses Milk River, an underground stream with water the color of milk. Graded road from Custer, which is on State Highway 85.

ALDERMEN PLAN METER QUIZ FOR SANITARY BOARD

Seek Other Ways to Curb Water Waste.

Hot debate is expected next week when trustees of the sanitary district come before the city council's finance committee to discuss water meters.

Mayor Thompson's anti-meter forces, it was said, are not discouraged by President Timothy J. Crowe's warning that a repeal of the meter ordinance would bring down the wrath of the war department and result, probably, in its revoking the permit for diversion of 8,500 cubic feet per second with "consequences too serious to mention."

"I shall have some very pointed and interesting questions to ask the gentlemen from the sanitary district," said Harry A. Blosset, the mayor's special water meter representative.

Prepared Adverse Meter Report.

Mr. Blosset is preparing a report on the meter situation which he will present at the next meeting of the finance committee, probably at the same meeting to which the sanitary trustees will be invited. It is understood that the report will set forth charges that:

1. Many meters installed in 1925 and 1926 were taken out and replaced by the water department in 1927.

2. Nearly 10,000 applications for meters in factories and office buildings

not by meters but by eliminating leaks in the mains.

It is the contention of the Thompson forces that the sanitary board, in showing alarm over governmental re-prisals if the ordinance is repealed, is blind to the real problem. What the government wants, they say, is a reduction of per capita use of water, and if that end can be obtained by stopping leaks the war department will waive its demand for meters.

The session between the sanitary district trustees and aldermen probably will continue the latter part of next week. After that meeting the finance committee will call in any other public officials or private citizens who are interested in the meter ordinance repeal.

MORE BUTTER AND EGG MAN.

An armed man held up John W. Campbell, driver of a butter and egg convey at 48 West Kinzie street, at School and Hamilton street, and robbed him of \$45.

Lowering of freight rates in the southwest by 20 per cent since 1921 was one of the principal arguments against granting wage increases made yesterday by J. L. Lancaster, president of the Texas and Pacific railroad, before the federal arbitration board.

The board was trying to determine whether an increase of 11 per cent demanded by trainmen of the St. Louis

Railway is justified.

Following the testimony of Mr. Lancaster, J. L. Jacobs, a Chicago economist, took the stand for the railroads in an effort to show that living costs now are on the down grade,

the conclusion of the roads being that the men are not in dire need of more money.

Notwithstanding the steady in-

H. C. L. DROPPING IS ROADS' REPLY TO WAGE DEMAND

Lowering of freight rates in the southwest by 20 per cent since 1921 was one of the principal arguments against granting wage increases made yesterday by J. L. Lancaster, president of the Texas and Pacific railroad, before the federal arbitration board.

The board was trying to determine whether an increase of 11 per cent demanded by trainmen of the St. Louis

Railway is justified.

Following the testimony of Mr. Lancaster, J. L. Jacobs, a Chicago economist, took the stand for the railroads in an effort to show that living costs now are on the down grade,

the conclusion of the roads being that the men are not in dire need of more money.

Notwithstanding the steady in-

crease in operating efficiency and marked improvement in service rendered, coupled with increased business handled, the Texas and Pacific has never earned a fair return on its investment and has never paid a dollar of return to the stockholders who own it," Mr. Lancaster declared.

For the period 1921-1926 the average annual return of his road was 3.64 per cent, the maximum of 4 per cent being earned in 1925, he said.

Mr. Lancaster, in his statements, followed generally the line of testimony of a number of middle western officials who pressed him on the stand. Western roads, they all con-

tended, have not prospered during the last few years in proportion to the prosperity enjoyed by the eastern and southern lines.

The new closed hours in the morn-

O.K. IS SEEN FOR PLAN TO LIMIT BRIDGE OPENINGS

Citizens bound for work in the morning will not be delayed much longer by bridges opened while sand dredges and freight scows wind tedious ways up river.

All Guy Guernsey, chairman of the

city council committee on bridges, canals and wharves, announced yesterday that his committee would take action at a meeting next Wednesday.

Approval will give the proposed ordinance which will extend the time until which the bridges must remain closed from 9 a. m. to 2:30. Ald. Guernsey promised.

The new closed hours in the morn-

ing will be from 7 to 9:30 a. m., instead of 8:30 to 9 o'clock, the alderman said. He declared shipping interests, confronted with a demand that the time be extended to 10 o'clock, had agreed to compromise on the half-hour extension. The measure will be reported out at the next council meeting, according to Guernsey, and its expressed confidence it would pass.

Italy Arrests 56 in Plot to Enter U. S. Illegally

GEOENA, Italy, May 12.—(UPI)—Fifty-six persons are in custody here following discovery of a widespread plot to promote illegal emigration to Amer-

ica.

The news closed hours in the morn-

ing will be from 7 to 9:30 a. m., instead of 8:30 to 9 o'clock, the alderman said. He declared shipping interests,

RUSSIANS RENEW U.S. RECOGNITION PLEA AT GENEVA

Delegates to Parley Face
Journalists' Quiz.

BY HENRY WALES.

(Chicago Tribune Press Service.)

GENEVA, Switzerland, May 12.—The Russians have voted to face the heavy guns of the world press, which they invited more than 250 journalists to examine them at their hotel today. Flanked by M. Varga, former finance minister under Bela Kun, once Soviet dictator of Hungary, and Georges Sokolnikov, Valerian Obolenski-Cuginski, head of the Soviet delegation to the economic conference of the League of Nations, tools of peace of the conference, were questioning.

The tone of the Soviet delegates' answers indicated a desire to be conciliatory, yet they seemed to be afraid of the reaction in their own press if they compromised too much. Admitting in principle the pre-war debts, M. Sokolnikov pointed out that neither the reparations nor the allied debts to America had yet been admitted. Later it was admitted that Russia's commerce with America was greater than its trade with countries which have extended political recognition, yet insisted that recognition of Rus-

sia by the United States would mean a tremendous improvement in international relations.

Say Women Are Happy.

The Bolshevik delegates asserted that women are happiest in Russia because of the laws which protect their illegitimate as well as legitimate children, and that their equality with men makes them enthusiastic Bolsheviks.

The wealth of Russia is estimated at 15,000,000,000 rubles (\$7,500,000,000), according to M. Sokolnikov, who is credited with stabilizing the Russian money. M. Sokolnikov also pointed out that Russia has abandoned its policy of economic isolation and is ready to encourage foreign capital.

In answer to a question regarding the nature of Russia's interests of security to foreign commerce, the delegation stated that conditions have changed since before the war and that Russia's increasing stability and commerce are the best guarantees that could be advanced.

Dennis Propaganda Aims.

It is evident that hereafter the Russians will be found at all international conferences, since M. Obolenski-Cuginski reiterated yesterday that the sole reason for the previous abstention of Russia was the strained relations between Russia and Germany.

He denied that the Russians still desired to put out propaganda, although he claimed the right of free expression of the Soviet's viewpoints regarding capitalism.

Argentina, Fearing Boer,
Bans Importing of Corn

Buenos Aires, Argentina, May 12.—(UPI)—The ministry of agriculture issued a decree today prohibiting importation into the country of any variety of corn. This step was taken because of the prevalence of the pest known as the corn borer in some sections of the United States.

IF SOVIET PUPIL FAILS, TEACHER FACES JOB LOSS

So Students Get Through
with Small Learning.

BY AARON KOPMAN.

(Chicago Tribune Press Service.)

LENINGRAD, May 12.—In soviet Russia's educational units, the rafshafas, the curriculum is supposed to equal that of the former Russian gymnasium [same as American high schools]. But none of a hundred of these students can solve a plain algebra or geometry problem. They do not read their own classwork. They do not recite Shakespeare, Milton, or Byron, they have not even the slightest idea who they were. When they write, every one of them knows the works of Upton Sinclair by heart. It is through his fifth that they gaze upon the "slave land America" and hope for a revolution to free the proletariat.

No teacher dare reprimand a pupil in the rafshafas. Few old instructors are left. Those who have succeeded in getting along disclaim strictness and strictness is not to be given. Not to give passing marks to a student is reason enough for the class to hold a meeting and to present the superintendent with a demand that this teacher be

fired. Therefore, those who are not expelled for failure to attend classes graduate with flying colors; some are permitted to enter the universities, where the same procedure rules, and which graduate the engineers, the physicians and surgeons, the lawyers and philosophers, the agricultural experts, and economists-business men who today are making a mess of ruling Russia.

Medicine and Dirt.

In Leningrad I was a frequent visitor at the medical college, for I had studied there before I emigrated to the United States. Every time I entered the building I was about to turn tail and run. There is more neatness and order in a Bowery Interborough station. Stairs and hallways were not scrubbed for months. No spittoons, and the floors were thick with cigarette butts. Students walked back and forth, their heavily booted boots making a terrible din. In the "restaurant" dishes were of tin, and the cheap wooden handled knives and forks were always rusty. Most of the students ate raw wooden spears served by the peasants, which they carried in their pockets—the easiest way to avoid syphilis, they said. The aluminum cups were incrusted with dirt.

Scorns Students' Food.

For a meal here the students paid 40 kopecks (50¢). I was invited to lunch by one student, and this was before I was jailed. Then I stuck up my nose at the food; today I could not eat it. This boy was intelligent. He thought conditions were terrible, but hoped everything would turn out all right in the end. If more students

were of his type things might turn out differently, but as conditions are now, even the commissars themselves are calling out for brains to help them run Russia, and brains are not to be had. Eventually, when conditions change, thousands of dozens of brains will be imported to Russia to help make order out of the Bolshevik chaos.

In the Wlshary concentration camp I met an old Cossack condemned to ten years for stabbing to death a student who had ruined his daughter. He told me, "After all, I am sorry I killed that boy. I should not have stabbed him. I should have killed one of those who are really to blame, one of those fanatics who sit in the Moscow Kremlin. They are the ones who ruined my child and millions of other Russian children."

The old Cossack was right.

AWNING HANGER FALLS.

Charles Landers, 36 of 2843 North 72d Street, made a fortune in the second door of a building at Monroe and Franklin streets yesterday. He may die

CONSTIPATION MURDERS SLEEP

Kellogg's ALL-BRAN brings prompt, safe relief—guaranteed!

Nervousness, sick headaches, insomnia are often the direct result of constipation. Indeed, this terrible curse wrecks strength and health—and causes more than forty serious diseases. Yet it can be relieved—easily, promptly, permanently. It can be prevented! Kellogg's ALL-BRAN is guaranteed to give relief.

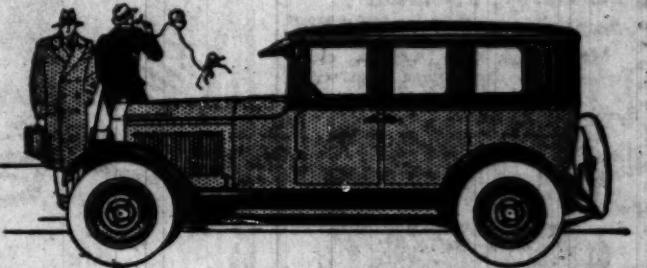

Doctors recommend ALL-BRAN because it is 100% bran or "bulk." It relieves constipation in nature's own way. Does a work no garnish product can equal. Simply eat two tablespoonsfuls daily—in

We've made it Easy to Rent a Car

That's why over a million will
rent cars this year from Hertz
Driv-Ur-Self Stations.

A National Car Rental Organization
Backed by the Resources of the Yellow
Truck & Coach Manufacturing
Company—a Subsidiary of the General
Motors Corporation.

DO YOU know why cars will leave our stations in 300 cities over a million times this year? New simplicity of rental is the big reason. Of course there are many others—but of them all, this one pleases our patrons most.

An entirely new way

You may have rented a car before—found red tape, questioning, annoyance. You find none of these here. All are done away with. This new method of renting cars is business-like, a model of fairness, simplicity itself.

If your name is in the phone book, and you are qualified and competent to drive—we rent you a car without further identification. If not, give one reference—that is all.

You're on the road in 2 minutes

Free to go wherever you like, taking family or friends with you—driving the car you rent exactly as you would a car of your own.

Thousands now go for evening drives, week-end outings, vacation trips—many of them in moderate circumstances, who could not afford these pleasures but for the low cost of Hertz Driv-Ur-Self Service. Its economy lies in the plan of paying only for the service you get. Many club together and divide the bill, thus still further reducing the cost.

And because over a million will use our cars this year—the benefits of great volume are brought to you in low rates—so low, in fact, that any man or woman can well afford frequent use of our cars.

Insurance

When you rent a car from Hertz Driv-Ur-Self Stations you become one of the insured under a public liability insurance policy with limits of \$10,000 and \$20,000 for personal injuries and \$1,000 for property damage. This policy is supplied by one of the largest old-line insurance companies. We further protect you against collision damage over \$10 to rented car and against loss of car through fire or theft.

We give you free the Key to Hertz
Driv-Ur-Self Service

It's valuable when you want a car in a hurry. We give it to you, without cost or obligation. It bears your name—is registered, and a reward offered for the return of your keys if lost.

You simply show this Key at our station. It enables you to rent a car any time—without even a moment's delay. Come in, please, and ask for yours—it's free.

Wimsett SYSTEM Liquidates Frozen Credits

Careful surveys, conducted by "Wimsett System" during the past few years, disclose that in many cities a surprisingly large amount of the capital of merchants and professional men is tied up in frozen credits. In many such communities Wimsett System Companies have been established to meet the situation and provide the necessary economic relief. That the condition has been successfully met is evidenced by the many letters sent out continuously by Chambers of Commerce, Business Men's Associations, Bankers, Merchants and

Professional Men. These letters testify to the benefit derived through the operation of Wimsett System in their communities.

A Wimsett System Company demonstrates the cumulative power of thrift. It liquidates frozen credits. It provides the third side of the triangle of credit—for business, for agriculture, for labor. There are now more than 120 Wimsett System Companies operating in the United States.

Write us for complete information on all phases of Wimsett System, an economic necessity.

SOX DRUB GRIFFS, 5-4; WIN 4TH IN ROW

FIELD OF EIGHTEEN AWAITS CALL TO DERBY BARRIER

BLUEBLOODS OF
TURF READY TO
GO ON PARADERailbirds Puzzled
Over Outcome.BY FRENCH LANE.
(Chicago Tribune Press Service.)
(Pictures on back page.)

Louisville, Ky., May 13.—When the long, grueling training grind for the Kentucky Derby ended here tonight there were eighteen possible starters quartered at Churchill Downs awaiting the call to the \$50,000 turf battle on Saturday afternoon.

This Derby zero hour, the climax to a heart-breaking struggle to prepare 163 three-year-old thoroughbreds for the most famous race in America, was more mystifying and more suspenseful than in any other year.

Even the issue of post time favored him in doubt. While it seemed he was in doubt, the Derby crowd was arrived amidst the wildest, most uncertain speculative scenes since the Derby was first decided in 1875. The advance Derby crowd was larger than ever before and the final outcome of the race more mystifying and more suspenseful than in any other year.

The more serious workouts follow:

Bostonian, mile and quarter, 2:14.

Whiskery, mile and a quarter, 2:11 2-5.

Gallop not impressive and he did not show great speed at any time.

Saxon, mile and a quarter, 2:16; mile in 1:45-5. Had little speed at the finish.

Scapa Flow, mile and a quarter, 2:13 1-5. Ridden by Earl Sande who had him under stout pull all the way. Sande said colt was fighting for his head.

War Eagle, mile and a quarter, 2:09 1-5. Showed early speed, but was not impressive, despite good time.

Hydromel, mile, 1:42. Went easy all the way. Full of run at finish.

Mr. Kirkwood, mile, 1:42 1-5. Doing his best work. His move not impressive.

Derby Dwindles to 18.

It was early last Friday when 182 original Derby candidates started their preparation for the race on Saturday afternoon which will hold the interest of the nation for a few short months.

But with the final roll of possible starters was called tonight eighteen were all that could answer present.

The list was as follows: Bostonian, Whiskery, Scapa Flow, Saxon, War Eagle, Jock, Rip Rap, Osmond, Kiev, Black Panther, Rolled Stocking, Fred Jr., Hydromel, Mr. Kirkwood, Buddy Bewithus, Boo, Royal Julian.

At the Derby Saturday morning there may be another obscure candidate or two bob up and get their names printed in Derby overnight lists, but more likely three or four of those eighteen possible candidates will drop out of line and not enter the roll call tomorrow morning.

Those that were regarded as possible doubtful starters were Boo, Mr. Kirkwood, Kiev, and War Eagle.

They were quickly eliminated. Mr. Hayes' Staxton was in the lead.

He worked the full Derby route in slow time this morning, and Trainer Gys Phillips was said to have been disappointed in the gallon, but he had not declared him out of the race.

All Ready to Go.

These candidates listed to go represent as nearly as possible the perfect condition and blemish on most of them and they come from the most famous and lines in the world. Here is Winkley, of the Broomstick line; Whiskery, of the Whiskery line; and looking over Miss of Winkley was the black Bewithus, looking like, but smaller than, his famed old daddy, Black Toney; Rolled Stocking, with the lines of Pennant; Osmond, the lines of his sire, Sweeper, which carried American silks in France, and so on down the line.

The coats glistened, their muscles stood like such hard rubber he was with the smooth skin their heads were high, their sleek brisk.

More than 30,000 visitors, the advance guard of the Derby crowd, had arrived tonight.

The early arrivals numbered so many thousands than in any one year that it appears a certainty all Derby day attendance records will be shattered.

The racing trials were beginning to pull in late tonight, but the big day of specials—there will be more in all—will not come until tomorrow morning. From then to noon Saturday they will be arriving.

Chicagoans Crowd Louisville.

Chicagoans were everywhere on the stands along the Derby sight-seeing route this afternoon. While the race card was being run off the track, the Chicago racers could see so many familiar faces that he might have believed he was at Lincoln Fields on August afternoon.

There was still some doubt tonight over the identity of the jockey who pilot Whiskery in the Derby. Clar-Kummer's suspension in Maryville robbed him of the engagement.

There were reports that both Mark and L. C. Edwards might have a

hand at Derby Saturday.

While the weather was threatening little cooler than the ordinary Kentucky May day, the track was fast.

It will take hard rains before now Saturday to change it, but the track of the track is deep and soft,

these horses which fancy heavy

rains were not at a disadvantage on

it.

Figures May Total \$2,913,000.

The estimate of \$2,400,000 to be

wagered tomorrow may be incorrect by a block. It is intended to be under rather than over that mark.

It assumes an attendance of only 70,

2,913,000 into the mutuels.

It is estimated that the management predicts between \$5,000 and \$6,000. But if \$5,000 attend and the average investment is the same as last year, then the total bet will be \$2,545,300. If, however, the per capita expenditures are the anticipated \$34.25, instead of the \$29.50 it was last year, then the predicted \$5,000 guests will pour

WHEAT AND CORN BREAK EARLY, BUT RECOVER LOSSES

BY CHARLES MICHAELS.

Wheat was decidedly unsettled, and fluctuated rapidly within a range of 1½ to 2¢, breaking early on scattered selling only to rally sharply in sympathy with Winnipeg and on short covering, and then readjusted on the last. The close was unchanged on May, 4½¢ higher on the new crop futures. May \$1.41½¢, July \$1.32½¢ to \$1.32¢, and September \$1.22¢.

An early break in corn was followed by free buying by the same local professionals who were aggressive on that side on Wednesday, with May and July selling at a new high on the present upturn. May touched \$1.30 1½¢ over the previous week. The cash market was 4½¢ higher on the new crop futures. May \$1.41½¢, July \$1.32½¢ to \$1.32¢, and September \$1.22¢.

Spring Wheat Seeding Late.

Most favorable weather in the spring wheat territory was a factor in making the decline in futures, but private reports from Canada indicated that seeding there was about three weeks later than normal, while in the American northwest it is now regarded as decidedly late to seed bread wheat, and a material switching in the acreage to durum in the Red River valley is expected. It is estimated that only 80 per cent of the North Dakota wheat crop now in the field was also increased claims of crop deterioration from Texas, Oklahoma, and Kansas. Reports from the latter were somewhat conflicting as to the extent of Hessian fly damage.

Houses with northwestern connections were good sellers on the bulges. Local handlers were figuring on cash wheat to come here from Kansas City, but no purchases were reported. Liverpool closed ½¢ lower to ¾¢ higher.

Better Cash Corn Demand.

While trade in corn was not as large on Wednesday, it took a decided upturn after an early break, with local bulls rather aggressive at times, but the upturn brought in liberal profit taking sales, due to the radical bulge of late, and the finish was well toward the bottom. Cash demand showed improvement, with sales of 21,000 bu in all positions, and the spot basis was steady to ¼¢ higher.

Removal of hedges against shipping sales of 450,000 bu east, combined with aggressive buying by the same cash house that sold the grain east, carried prices up sharply, with July in new ground for the season. However, on the bulge part of the purchases were sold out, causing a good reaction. Northwestern houses and cash interests sold July and bought back at a premium, closing slightly May and sold July.

Rye was rather dull, with action of wheat the main influence. Germany bought a little rye at the seaboard.

**Capital Increases O. K.'d
by Three Corporations**

Capital stock increases were approved yesterday by stockholders of three large corporations. Father Exchange class A common will be exchanged on the basis of one new class A \$4 of preference stock and one-half share of new common for each share of old stock.

The preferred stock of the Utilities Power and Light corporation will be increased from 180,000 to 300,000 shares; the class A common by 600,000 to 1,000,000 new shares, and class B common by 500,000 to 1,000,000 shares.

United Cities stockholders approved the issuance of \$25,000,000 6 per cent preferred and the retirement of \$1,600,350 7 per cent preferred and of \$2,754,000 6 per cent debenture bonds of the United States Realty corporation.

CASH·GRAIN NEWS

Producers showed little disposition to sell wheat and the seaboard reported sales in all positions of 200,000 bu. It is held that foreigners have a large quantity of wheat on hand, and the Americans are inclined to hold off, anticipating lower prices. More inquiry for new crop has been made, and the market is again on a work basis. There was a little rye sold at the seaboard, while bids on small quantities were firm.

GRAINS-IN-ALL MARKETS

Surplus milk in the straw that's breaking the old cow's back in Illinois. In order to find a market farmers have to separate thousands of gallons of milk. They sell the cream and many of them feed the skim milk to their hogs. Skim milk is of greater value when made into cheese or butter. and is a good source of protein.

It is said the largest short crop ever

of 10 million bushels in the pit took the break of 10 cents on the top price as indicating that the short interest which has been an important factor in making the recent advance of 10¢ in May corn was well in. The market will probably end the year with a slight loss, but the price will be held up by the fact that the surplus skim milk now fed to hogs in Illinois could be made into cottage cheese and sold for 12¢ to 20¢ a pound a pound.

Tracy, a dairy manufacturing expert of the state agricultural college, says the most common method of separating the cream cheese on the farm is to take a tablet containing rennet or put the curd through the natural souring process.

His methods call for high quality milk,

cooled to 75 degrees Fahrenheit immediately after separation, and pour into a double boiler. Dissolve a junket or rennet tablet in a pint of cold water and stir as it is added to the milk; use one pint of milk to 100 pounds of cream.

Heat the milk to 100 degrees for 15 minutes.

It's time to bring the curd to the top when it is ready to cut, the curd is smooth and cuts clean.

Then, according to Tracy, it is time to break the curd into cubes, heat slowly, and agitate gently. If no junket is added, heat the curd to about 92 degrees in about thirty minutes and hold until it splits open when squeezed. It usually becomes firm in five to ten minutes.

Where the junket is used, heat the curd slowly to 110 to 112 degrees in about sixty minutes and hold for five to ten minutes until the curd is firm. Drain off the whey, wash twice in cold water, and when dry add two ounces of salt to each ten pounds of curd. Cream cheese is 10¢ a pound. Pack the cheese in glass jars or paraffined paper containers for marketing.

Corn traders were excited at the close by the reported sale of 400,000 bu cash corn to Buffalo. The trade settled

ment is strong bullish, based on a smaller acreage than expected, especially in Iowa and there is a disposition to buy futures on all week spots.

Iowa has a largest producer of corn and oats, and were liberal sellers on all the hard crops. This has created an impression that what should be sold on basis for a quick turn.

A large number said: "Years are we only

bought here, where we can't make a profit on them. Now we have to buy them every day regardless of profit."

A wheat bull, explaining his position, said

that with Chicago 5¢ under Buenos Aires around 100,000 bu cash corn to Liverpool, there is nothing on which to base a bearish position.

What bonds should you buy?

We are almost the last bond and were the luxuries, from an income that, perhaps, only meets the necessities;

—it's easy to be positive that your investments are safe, and will yield you a sure, dependable income;

—it's easy to know what makes good bonds good, and how to prove that your bond house is reliable;

—it's easy, if you know how, and you can know how at no cost whatever. Competent authorities have charted your course in the recently published book, "How to Judge Bond Worth."

GENERAL MOTORS DECLARATES EXTRA DIVIDEND OF \$2

BY O. A. MATHER.

The General Motors corporation's policy of passing along prosperity to its stockholders in the form of dividends was again manifested yesterday. The directors declared an extra dividend of \$2 a share on the common stock, in addition to the regular quarterly payment of the same amount.

This action followed the announcement a few days ago that earnings for the first quarter of this year set a record for that period. The extra dividend also helps meet the directors' expectation of large second quarter earnings, as it is payable on July 5 to stockholders of record May 21. The corporation's financial position continues strong, with cash and marketable securities totaling around \$150,000,000.

Production Holds Steady.

"The automotive industry is pursuing a steady course through the peak of the selling season," Automotive Industries says. "Production schedules in one or two important factories have been stepped up, but for the majority the rate is approximately the same as in recent weeks."

The sales situation is more irregular, as unusually good markets in some territories are counterbalanced by unsatisfactory conditions in others. The latest news is that new car sales are down somewhat under that prevailing a year ago. Overall improvements are the best in the country's history. Minor sales disturbances in some sections are reported as a result of a tightening of credit extension by finance companies.

On the whole, installment buying of automobiles now is on a sounder basis than at any time in recent years."

Building Operations Spotty.

Spottiness in building construction continues. Reports from 503 leading cities and towns to W. S. Straus & Co. show April building permits totaled \$305,734,110, compared with \$448,151,187 last year.

Permits were down 25 per cent, the decline of 12 per cent. In the last two months we have fallen off about 40 per cent.

The value of engineering contracts let in the last week were \$65,309,000, compared with \$62,783,000 a year ago, according to the Engineering News-Record. The total thus far for this year is \$1,014,477,000, a gain of \$21,302,000 over last year.

Operations of the steel industry this week are lower than last week, being slightly above \$1 per cent of capacity, compared with about 82 last week and 84 two weeks ago. The U. S. Steel corporation is holding steady between 88 and 90 per cent, but independents are down to 74 per cent.

Stock in Credit Demand.

The usual mid-month slackening in the demand for credit is shown in the weekly report of the federal reserve system. Loans and open market bills declined \$65,665,000 and \$11,189,000 respectively.

Government securities received \$62,300,000. Deposits dropped \$63,227,000, chiefly due to a decline in member bank cash of \$46,731,000. Note circulation fell \$2,400,000.

Gold and total reserves expanded \$21,251,000 and \$27,722,000 respectively. The ratio of reserves to liabilities rose to 87.75 per cent a week ago.

The New York federal reserve bank again last night announced no change in its 4 per cent rediscount rate, although it showed a stronger financial position.

Loans and bills bought declined \$24,767,000 and \$39,000,000 respectively. Deposits dropped \$43,218,000 and reserves receded \$74,000.

The reserve ratio rose to 8.8 from 8.7 per cent. At Chicago, loans declined \$24,449,000, bills bought showed little change and deposits receded \$4,295,000. Reserves increased \$15,148,000 and the reserve ratio rose to 8.1 from 7.75 per cent a week ago.

HARAHAN DENIES NICKEL PLATE'S PART IN MERGER

Washington, D. C., May 12.—(Special to the Tribune)—Knowledge of the proposed Van Sweringen-Chesapeake and Ohio system was made today by W. J. Harahan, president of the Chesapeake and Ohio, at the hearing before C. D. Mahaffie, director of finance of the Interstate commerce commission, on the Van Sweringen merger plan.

Admission was made by Mr. Harahan that the Chesapeake and Ohio has developed this information on credit from the Virginian railway. Control of the Virginian was sought by the Norfolk and Western, but the commission held such control would not be in the public interest.

Henry W. Anderson, counsel for the C. & O. minority stockholders, who are fighting the Van Sweringen merger plan, developed this information on credit from the Virginian.

Herbert Fitzpatrick, vice president and general counsel of the C. & O., objected to questions relating to the Virginian railway negotiations.

"Is it part of your plan to take in the Nickel Plate?" asked Mr. Anderson.

"Not at present," said Mr. Harahan. "Is there any plan to take this system over to the Nickel Plate? I am using the assets of the C. & O. to compete with the Erie and Penn Marquette?" asked Mr. Anderson.

"No," replied Mr. Harahan.

O. P. and M. J. Van Sweringen and friendly interest control the Chesapeake and Ohio and the Nickel Plate.

O. P. Van Sweringen is chairman of the board of the C. & O., while M. J. Van Sweringen is chairman of the board of the Nickel Plate.

Sophy Tancred's Husbands

By ELIZABETH YORK MILLER

SYNOPSIS.
Sophy and Piers Tancred have lately taken the Villa Mona at Bordighera on the Villa Mona. Sophy learns that her former husband, Alan Brooke, the sculptor, is still married and that they are to meet at dinner that night. "The artist of the villa," says Brooke's studio to warn him against telling Piers that they had been married. When Sophy's housekeeper, Cristina, is his wife and they had a little son, Villa Mona, a male cousin of Bordighera, interrupts them and Sophy flies back to Villa Mona in fear.

At dinner Alan and Sophy meet as if for the first time, but the Princess Dabrell who Sophie is now, recalls their stolid days in Paris. Piers tells the princess that he is Alan's son, Sophie is his wife, not Alan's. Piers commends Alan to make a best friend, a friend of Piers, and Villa Mona try to unravel the mystery of Villa Mona.

INSTALLMENT XXX.

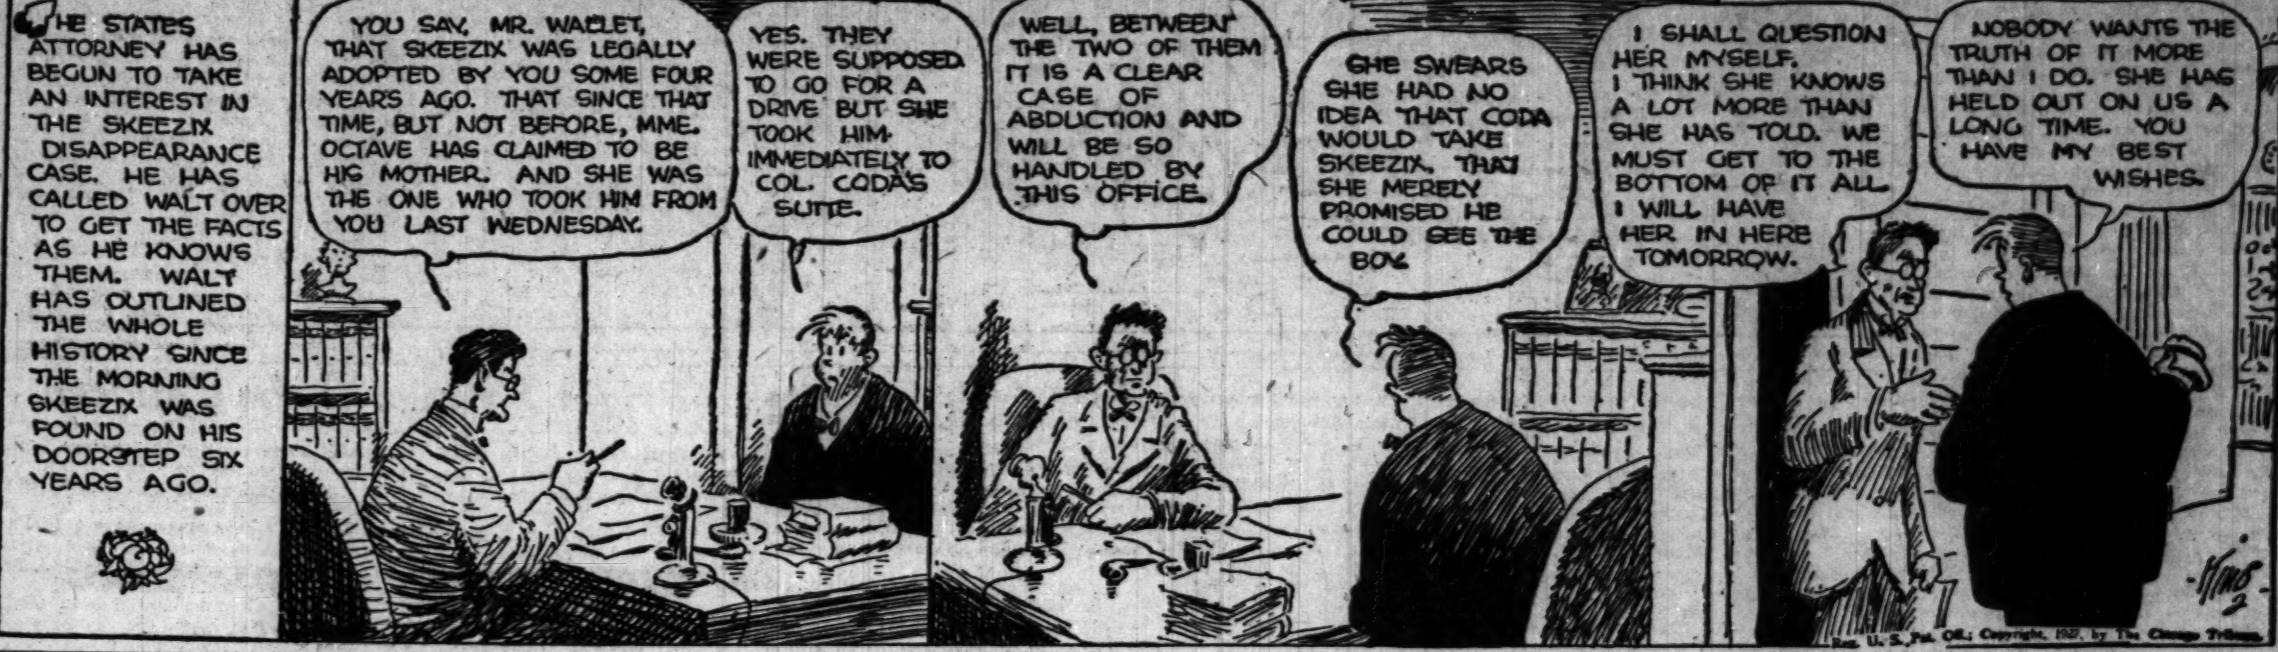

A SPEECH ON THE SEA.

Where Piers was concerned, Alan would willingly have laid before him the whole tragic Odyssey of Sophie and himself, only of course it would take time to understand and sympathize, and Piers Tancred was not even one of the lesser gods.

Alan saw well enough how the affair would be regarded by the world at large. Some romanticists might applaud them, but mighty few people would say anything noble about such an elopement. Who could guarantee that a sum total between him and Sophie would prove any more successful than that?—and that had been pure flaccid.

And yet all this speculation counted for nothing, really. Would Sophie be happy—or himself, when it came to that? The world would be astonished indeed, to be told that neither of them expected happiness out of it.

He here was the feeling of being driven to do something against all reason and judgment. It had to be done. They had to be together. They had to trample down every obstacle to gain each other again. Every hour that Sophie spent under the roof of the Villa Mona meant the torture rack for Alan Brooke. That torture was driving him mad and anything, a crime, might be justified to gain him a measure of relief. So he argued in
